PART 3
YOUR FOOD

THREE SIMPLE RULES.

They give you flexibility while making sure you eat plenty of good quality food and the right amount of calories to hit your goals.

90%

of the time eat single ingredient food

10%

of the time be flexible and eat what you want

RULE THREE

Track your food and hit your calorie and macro targets every single day.

TRACKING YOUR FOOD.

USE OUR TARGETS

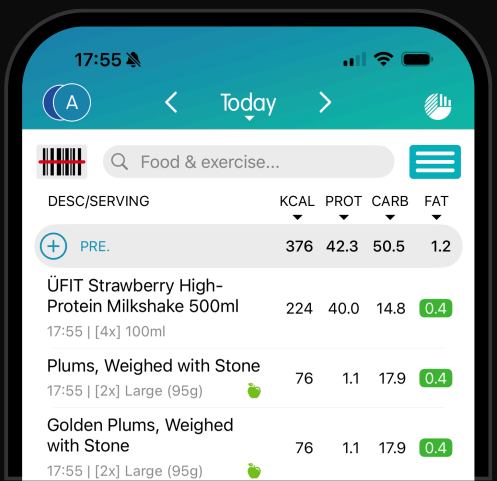

Your food app will suggest its own. Ignore them. Use the ones we've given you on the Nutrition tab in Trainerize.

YOUR FOOD APP

Nutracheck is our favourite because it's full of UK food. MyFitnessPal is fine too. We've left you a guide for each one in your Trainerize attachments.

PREFER NO APP?

Pen and paper works.

PART 4

YOUR PROGRESS

Your measurements and what to expect.

YOUR MEASUREMENTS.

Our InBody scanner tracks your physical progress. These are the readings we focus on.

MUSCLE-FAT ANALYSIS

Your total body weight, as well as the weight of your skeletal muscle mass and body fat.

SEGMENTAL LEAN & FAT

How much lean mass and fat mass you have in each segment of your body.

BODY COMPOSITION HISTORY

How your body has changed over time, including changes in body fat percentage.

THIS IS YOUR STARTING POINT

You've decided to take control, and that's the hardest bit. With hard work and consistency, we can't wait to watch these numbers improve.

EXPECTED RESULTS.

What you can expect to see, depending on your goal.

IF YOUR GOAL IS FAT LOSS

Body weight	↓ DOWN
Fat mass	↓ DOWN
Body fat %	↓ DOWN
Muscle	↑ UP

IF YOUR GOAL IS WEIGHT GAIN

Body weight	↑ UP
Fat mass	↑ UP
Body fat %	↑ UP
Muscle	↑ UP

YOUR BODY WEIGHT.

We don't take too much notice of your body weight. Here's why.

YOUR WEIGHT CHANGES EVERY DAY

Your weight can move a kilo or two overnight. Water, salt, carbs, what's in your gut, sore muscles, stress, poor sleep and your period all play a part. None of that is fat.

YOUR BATHROOM SCALES CAN'T TELL FAT FROM MUSCLE

They only give you one number. You can lose fat, build muscle and weigh the same, while your clothes get looser and you get stronger.

THAT'S WHY WE USE THE INBODY

It shows whether you're losing fat and building muscle. How your clothes fit and how strong you feel count too. If you do weigh yourself, look at the trend over a few weeks. One weigh-in means nothing.

YOUR QUESTIONS.

HOW DO I BOOK MY SESSIONS?

In the TeamUp app. That's where you can see the timetable and book in.

I AM SORE. WHAT SHOULD I DO?

It's totally normal to feel a bit sore after your first few sessions. This is called Delayed Onset Muscle Soreness. The best thing you can do is get back into the gym and get moving again.

WHAT HAPPENS AFTER?

It's your choice. You can carry on as a full-time member, or if you decide we're not for you we can part ways with no hard feelings.

I HAVE ANOTHER QUESTION

No problem. Message your coach on Trainerize, email us on support@bodysculptwarrington.com or speak to one of the team in the gym.

SEE YOU IN THE GYM.
